- HTML/CSS
- JavaScript
- Java
- Python
- SQL

- **Data Structure**

SOFT SKILLS

- **Communication**
- **Creativity**
- **Leadership**
- **Time Management**
- **Problem Solving**
- **Decision Making**
- **Collaboration**

PROJECTS

ACADEMIC PROJECTS

- **Laptop Shop Management System**
Programming Language: Python
Developed a comprehensive application for managing a laptop shop. The system handles purchasing laptops from manufacturers and selling them to customers. Key features include maintaining an inventory of available laptops, updating stock levels based on transactions, and generating detailed invoices for both sales and purchases. The project emphasized modular programming, data structures, and error handling to ensure robust and efficient performance.
- **Bank Card Management System**
Programming language
